10. Curriculum, Assessment and Reporting

1. Curriculum and Learning Programme

The Nursery shall implement the Early Years Foundation Stage (EYFS) framework, providing a developmentally appropriate, play-based learning programme that supports each child's holistic development. The curriculum shall cover all seven areas of learning and development: the three Prime Areas—Communication and Language, Physical Development, and Personal, Social and Emotional Development—and the four Specific Areas—Literacy, Mathematics, Understanding the World, and Expressive Arts and Design.

Arabic language instruction forms an integral part of the educational programme at Wonder Whiz Kids Nursery. The nursery aims to introduce children to the Arabic language in an age-appropriate, engaging, and interactive manner, in accordance with the children's developmental stages and the applicable educational requirements.

The Arabic language programme may include the introduction of Arabic letters, basic vocabulary, greetings, everyday expressions, listening and speaking activities, songs, rhymes, stories, visual aids, and interactive learning experiences. Activities will be planned according to the children's age group, language ability, and developmental needs, with the objective of developing familiarity with the Arabic language and encouraging an appreciation of Arabic culture.

Arabic language sessions will be conducted by the designated Arabic teacher, in accordance with the nursery's approved curriculum, academic schedule, and applicable regulatory requirements. The frequency, duration, content, and learning objectives of the sessions may vary depending on the children's age group, classroom programme, and the relevant educational guidelines

STEAM (Science, Technology, Engineering, Arts and Mathematics) experiences shall be integrated into the learning programme to enhance children's language development, creativity, problem-solving and exploration skills.

Islamic education shall be provided to children aged 4–5 years, within the Nursery's approved age range, focusing on age-appropriate Islamic values, good manners (Akhlaq), respect, kindness, honesty, sharing, gratitude, basic Islamic teachings, simple daily supplications, short Surahs and introductory Islamic practices, in accordance with applicable KHDA requirements and the Nursery's approved programme.

Learning experiences shall be planned according to children's ages, developmental stages, individual needs and interests, while promoting inclusion, wellbeing, UAE national identity and school readiness.

2**. Assessment and Documentation**

The Nursery shall conduct ongoing formative assessment through systematic observations of children during play, planned activities, daily routines and interactions. Children's learning and

development shall be documented at least twice per week through appropriate observation records, learning stories, work samples, photographs and other relevant evidence of learning.

Assessment records shall be used to monitor each child's progress across the relevant EYFS areas of learning, identify strengths and emerging needs, and inform future planning, differentiation and individual learning support where appropriate. Assessment shall be age-appropriate and focused on each child's individual progress rather than comparison with other children.

3**. Progress Reporting and Parent Partnership**

The Nursery shall provide a formal progress review at the end of each academic term through scheduled Parent–Teacher Meetings (PTMs). Parents shall be informed of their child's progress across the relevant EYFS areas of learning, developmental achievements, strengths, emerging needs and recommended next steps.

The Nursery shall encourage ongoing communication and partnership with parents to support continuity of learning between home and the Nursery. Where additional developmental concerns are identified, the Nursery shall communicate with parents and discuss appropriate support and follow-up in accordance with the Nursery's policies and applicable regulatory requirements.

11. Distance Learning, Blended Learning and Continuity of Learning

Read together with the **KHDA Registration and Refund Policy**.

If learning cannot take place fully in person – for example during a government-enforced closure or other directive from the authorities – the school may deliver learning through distance or blended means, with KHDA approval. The school will tell you the arrangements, and what is expected of students, through its usual communication channels.

- Tuition fees remain payable in full while education is delivered, including through KHDA-approved distance learning. Choosing not to engage is not grounds for reducing fees.
- For any period the school cannot deliver its service, you are compensated by written agreement: a credit note against future fees, a transfer of credit to a sibling at the school, or a refund.
- Concerns about distance learning quality go through the school's complaints process; fees remain payable while a complaint is being resolved and the student is expected to continue attending and participating throughout the complaint resolution process.
